SKILLS

• **Language:** Python, SQL, Java.

• **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit learn, TensorFlow, Keras, NLTK, OpenCV.

• **Technical** – Statistical Analysis, Data Mining.

• **Others** – HTML, CSS, Bootstrap, Django, Flask, Git, Github, Heroku.

EDUCATION

DEGREE

SHIV NADAR UNIVERSITY

Uttar Pradesh, Greater Noida, Gautam Buddha Nagar

Bachelor of Technology in Computer Science and Engineering

(Expected graduation July 2022)

PROJECTS

MACHINE LEARNING

- Build a salary predictor model using linear regression and flask deployed it on Heroku.
- Made a IPL score predictor preprocessed it visualized it and build a model using Ridge and Lasso Regression.
- Build a Flight Fare Prediction Model Using Random Forest Regressor
- Build and visualized a student performance model using Random forest classifier.
- Build a twitter sentiment analysis model using logistic regression
- Made a classifier that classifies Spam and Ham using Naïve Bayes classifier.
- Build a Airbnb price predictor visualized it and model using XGBOOST.
- Build a Movie Recommender System and Visualized it on the basis of popularity.

DJANGO

- Build a Portfolio website using HTML, CSS , Bootstrap and Django as a backend and deployed it on Heroku.
